our recommendation

We are specialized in international investments, regarding consumer goods as well as real estate. Therefore the requirements in legal consultation are manifold. Even though we are located in Switzerland we decided to entrust the legal services to Dr. Scheele since he and the team of Legal Alliance do not only cover the scope of legal knowledge in various countries. In addition and in particular Dr. Scheele proved to have superior negotiation skills when it came to contract negotiations.

We have never experienced a more competent and efficient legal service combined with an incomparable personal effort and with many years of experience in international business transactions.

Best regards
