To whom it may concern

Dr. Scheele and his legal team have advised us for more than a decade. The scope of legal advice, including contested issues in court, concerned mostly commercial issues. Even though Legal Alliance is considered to be, what is called a boutique law firm, Dr. Scheele and his team were capable to render full legal service as you would normally expect it only from one of the big players in the juridical world.

Worthwhile emphasizing though is the fact, that his boutique firm delivered a remarkable efficiency, always personally guided by its CEO Dr. Michael Scheele. Never have we felt more confident regarding legal advice than under his umbrella.
