

To whom it may concern

The Western Balkan countries are currently facing two challenges: Entering the European Union and the deepening of the political and economical reforms. Connected with this is the process of legal adjustment and law enforcement as well as privatization. For resolving these issues, an oriented and highly capable consulting is needed , such as the Legal Allianze.

Dr. Agron Lamaj

To whom it may concern

I have cooperated with Dr. Michael Scheele and Legal Alliance since 1991. Dr. Scheele has helped the Republic of Albania in drafting laws, including the first democratic constitution. Moreover he proved to be a legal expert in private and civil law regarding the implementation of joint-ventures in our Republic. He enjoys high esteem with local firms and with members of the administration.

My personal judgement is also based on a one year experience in the Munich office of Dr. Scheele, where I supported him in legal affairs.
