To whom it may concern,

as one of the leading beauty clinics in the Germany speaking countries (Germany and Austria) we treat patients from all over the world. No matter if national or international issues, if private or business matters we have entrusted all of our cases, which required legal knowledge and experience into Dr. Scheele and his legal team. It is with great gratitude, that we can recommend his boutique law firm as the best of all lawyers, which has advised us in the past years. We can convincingly suggest, to list him and his team for the Top lawyer 100 Germany.
